Year End Review

UCARE Meeting

The UCARE2021 Conference is one of the biggest and most important urticaria meetings of 2021, featuring sessions on new insights on the pathogenesis, the differential diagnosis, and the management approach to urticaria as well as on new results from basic scientific projects and epidemiological studies on chronic urticaria.

New treatment approaches and the results of clinical studies in chronic urticaria will also play a big part in the conference.

This webinar will give a brief overview of the individual conference sessions. Moreover, speakers shall share their critical look on the topics that were featured during the conference.

Welcome 6'

Désirée Larenas-Linneman

Head of UCARE center in Mexico, Center of Excellence in Asthma and Allergy Larenas S.C., Hospital Médica Sur, Mexico City, Mexico

Summary of the Poster Session 12'
